Increasing Static Component ↑↑↑
Increasing Dynamic Component →→→→→

Sport Classification Based on Intensity & Strenuousness: This classification is based on peak static and dynamic components achieved during competition. It should be noted, however, that higher values may be reached during training. The increasing dynamic component is defined in terms of the estimated percent of maximal oxygen uptake (MaxO₂) achieved and results in an increasing cardiac output. The increasing static component is related to the estimated percent of maximal voluntary contraction (MVC) reached and results in an increasing blood pressure load. The lowest total cardiovascular demands (cardiac output and blood pressure) are shown in lightest shading and the highest in darkest shading. The graduated shading in between depicts low moderate, moderate, and high moderate total cardiovascular demands. *Danger of bodily collision. †Increased risk if syncope occurs. Reprinted with permission from: Maron BJ, Zipes DP. 36th Bethesda Conference: eligibility recommendations for competitive athletes with cardiovascular abnormalities. *J Am Coll Cardiol.* 2005; 45(8):1317-1375.

I have examined the student named on this form and completed the Sports Qualifying Physical Exam as required by the Minnesota State High School League. The MSHSL has competitive interscholastic Physically Impaired (PI) competition. Students who are deemed fit to participate in competitive athletics from a MSHSL sports qualifying exam should meet the criteria below to participate in Adapted Athletics – PI Division.

The MSHSL Adapted Athletics PI Division program is specifically intended for students with physical impairments who are medically eligible to compete in competitive athletics. A student is administratively eligible to compete in the PI Division with one of the two following criteria:

The student must have a diagnosed and documented impairment specified from one of the two sections below: *(Must be diagnosed and documented by a Physician, Physician’s Assistant, and/or Advanced Practice Nurse.)*

1. _____ Neuromuscular _____ Postural/Skeletal _____ Traumatic
 _____ Growth _____ Neurological Impairment

Which: _____ affects Motor Function _____ modifies Gait Patterns

(Optional) _____ Requires the use of prosthesis or mobility device, including but not limited to canes, crutches, walker or wheelchair.

2. _____ Cardio/Respiratory Impairment that is deemed safe for competitive athletics but limits the intensity and duration of physical exertion such that sustained activity for over five minutes at 60% of maximum heart rate for age results in physical distress in spite of appropriate management of the health condition.

(NOTE:) A condition that can be appropriately managed with appropriate medications that eliminate physical or health endurance limitations WILL NOT be considered eligible for adapted athletics.

Specific exclusions to PI competition:

The following health conditions, without coexisting physical impairments as outlined above, do not qualify the student to participate in the PI Division even though some of the conditions below may be considered Health Impairments by an individual’s physician, a student’s school, or government agency. This list is not all-inclusive, and the conditions are examples of non-qualifying health conditions; other health conditions that are not listed below may also be non-qualifying for participation in the PI Division.

All MSHSL eligibility determinations are based on the most current official handbook on the MSHSL website at: www.mshsl.org/governance

Statement to be signed by the participant from a MSHSL member school and by the participant's parent or guardian each school year prior to participation in that year.

Please check all items:

- I have read, understand, and acknowledge receiving the 2023-2024 MSHSL Eligibility Brochure, which contains only a summary of the eligibility rules of the Minnesota State High School League. I understand that a copy of the Official Handbook of the MSHSL is on file with the senior high school athletic director and or principal and that I may review it, in its entirety, if I so choose.
- We, the student and parent, have reviewed Concussion Management Recommendations for MSHSL Athletes contained in the Eligibility Brochure and on the following website:** www.cdc.gov/headsup
- I understand that once I sign the eligibility statement all eligibility rules apply:
 - 12 months of the year;
 - Whether I am currently participating or not;
 - Continuously from the first signing of the statement through the completion of my high school eligibility.
- Regardless of my age I agree to follow all of the MSHSL Bylaws in order to be eligible to represent my school in League-sponsored activities.
- I further understand that a member school of the MSHSL must adhere to all of the rules and regulations that pertain to the League athletics/activities a school may sponsor and that local rules may be more stringent, and penalties more severe, than MSHSL rules.

STUDENT CODE OF RESPONSIBILITIES

- As a student participating in my school's interscholastic activities, I understand and accept the following responsibilities:
 - I will respect the rights and beliefs of others and will treat others with courtesy and consideration.
 - I will be fully responsible for my own actions and the consequences of my actions.
 - I will respect the property of others.
 - I will respect and obey the rules of my school and the laws of my community, state and country.
 - I will show respect to those who are responsible for enforcing the rules of my school and the laws of my community, state and country.

A student whose character or conduct violates the Student Code of Responsibilities or is suspended or expelled is not in good standing and is ineligible for a period of time as determined by the principal. While a student not in good standing, a student may not serve any penalty for MSHSL Bylaw violations.
- Informed Consent:** By its nature, participation in interscholastic athletics includes risk of injury and the transmission of infectious diseases such as HIV, Herpes and Hepatitis B and others. Although serious injuries are not common, and the risk of HIV transmission is almost nonexistent in supervised school athletic programs, it is impossible to eliminate all risk. Participants have the responsibility to help reduce that risk. Participants must obey all safety rules, report all physical and hygiene problems to their coaches, follow a proper conditioning program, and inspect their own equipment daily. **PARENTS, GUARDIANS OR STUDENTS WHO MAY NOT WISH TO ACCEPT THE RISK DESCRIBED IN THIS WARNING SHOULD NOT SIGN THIS FORM. STUDENTS MAY NOT PARTICIPATE IN AN MSHSL-SPONSORED ACTIVITY WITHOUT THE STUDENT'S AND PARENT'S/GUARDIAN'S SIGNATURE.**
- I consent to the athletic trainer or coach treating injuries and authorize them to discuss those injuries with and release any applicable medical information or records relating to those injuries to coaches, school staff and other qualified health care providers as deemed necessary within their scope of practice.

2023-2024 MSHSL Eligibility Statement (continued)

- I further understand that in the case of injury or illness requiring transportation to a health care facility, that a reasonable attempt will be made to contact the parent or guardian in the case of the student-athlete being a minor, but that, if necessary, the student-athlete will be transported via ambulance to the nearest hospital.
- By signing this we acknowledge that we have read the information contained in the 2023-2024 MSHSL Eligibility Brochure and Statement.
- I/we acknowledge the electronic signature confirms I/we have read and reviewed the information contained in the contents of the Eligibility Brochure and Statement. I/we also acknowledge this electronic signature has the same legal effect, validity, and enforceability as a signature in a non-electronic form.

The student/parent authorizes the release of documents and other pertinent information by the school in order to determine student eligibility. In addition, the student/parent understands and agrees that public information shall include names and pictures of students participating in or attending extra-curricular activities, school events, and High School League activities or events.

5. TRANSFER RULE — Bylaw 111

A. A transfer student is eligible for varsity competition provided the student was in Good Standing on the date of withdrawal from the last school the student attended and one (1) of the provisions in Section B (below) is met.

B. A transfer student is eligible for varsity competition if:

1. 9th Grade Option: The student is enrolling in 9th grade for the first time.
2. Family Residence Change: The student transfers from one public school district attendance area to another public school district attendance area at any time during the calendar year in which there is a change of residence and occupancy in Minnesota by the student's parents. If the student's parents move from one public school district attendance area to another public school district attendance area, the student will be eligible at the public school in the new public school attendance area or a non-public school if the student transfers at the same time the student's parents establish a new family residence. (Please see Definitions for further explanation.)

OR

If the parents move from one public school district attendance area to another public school district attendance area, the student shall continue to be fully eligible if the student continues enrollment in the prior school for the balance of the current marking period or for the balance of the academic school year. If the student elects either of the current enrollment options above, the student will be fully eligible upon transfer to the new school in the public school district attendance area where the student's parents reside or a non-public school.

A student who elects not to transfer upon a parent's change in residence shall continue to be eligible at the school in which the student is currently enrolled.

3. Court Ordered Residence Change for Child Protection: The student's residence is changed pursuant to a child protection order placement in a foster home, or a juvenile court disposition order.

 - a. At the public school in the new public school attendance area as determined by the district school board where the new residence is located; or
 - b. At any non-public school.

The student may utilize this provision only one time during grades 9-12 inclusive.

The new residence cannot be located in the same public school attendance area as the previous residence.

Please Note: This provision can only be applied the first time the student moves between parents and changes schools and only if the specific requirements of this provision are met. The intent of this provision is to provide varsity competition eligibility for a student who is living (solely) with one parent and who desires to move to live with the other parent. Additionally, a student of separated parents, who resides with one parent and moves to reside with the other parent shall be eligible at the time of the move.

5. Move from Out of State: if a student's parents move to Minnesota from a state or country outside of Minnesota and if the student moves at the same time the parent establishes a residence in a Minnesota public school district attendance area, the student shall be eligible at the first school the student attends in Minnesota.
- C. If none of the provisions in Athletic Rule 5.B.1-5 (above) are met, the student is ineligible for varsity competition for a period of one (1) calendar year beginning with the first day of attendance at the new school.
1. Students are immediately eligible for competition at the non-varsity level.
 2. A student may not obtain eligibility as a result of a transfer. If at the time of transfer the student was not fully eligible in the previous school, the student shall be ineligible in the new school. A student who was not in good standing at the time of transfer shall be ineligible until the penalty from the previous school has been served.
 3. Multiple Transfers: A student who is serving a one-year varsity competition suspension as a result of a transfer shall have an additional varsity competition suspension for each subsequent (additional) transfer. A new, one-year varsity competition suspension will begin on the first day of attendance or the first day of participation in a fall sport practice at the new school each time the student transfers.
- D. Enrollment Options Program: a student who utilizes Minnesota Statute 124D.03 Enrollment Options Programs, and transfers without a corresponding change of residence by the student's parents shall select one of the participation options identified below:
1. Retain full eligibility for varsity competition for one (1) calendar year at the school where the student was enrolled prior to the transfer after which time the student shall become fully eligible at the school to which the student has transferred; or
 2. Be eligible only at the non-varsity level in the school to which the student has transferred for one (1) calendar year.
 3. Participation is defined as practice, training, scrimmaging, tryouts and competing.
- E. Return to Former School Policy: A student who transfers from one MSHSL member school to another MSHSL member school is ineligible for varsity competition for a fifteen (15) calendar day period from the first day the student attends

practice in the fall or attends classes in the new school for the first time.

1. Upon transfer, the student will be ineligible at the former school and may practice at the new school but may not compete in any varsity activity at the new school.
2. The student will retain full eligibility at the former school if the student chooses to return to the former school during the fifteen (15) calendar day period.
3. If the student remains at the new school, following the fifteen (15) calendar day period, the student will become eligible at the varsity level only when the student has fully met all of the transfer criteria and has been deemed to be eligible both by the new school and the League office.
4. If any of the transfer criteria has not been met, the student will be ineligible for varsity competition at the new school and must then choose between varsity eligibility at the former school or JV eligibility at the new school.
5. The student may elect to decline the fifteen (15) calendar day period to become eligible to compete at the varsity level at the Receiving School once the school administration determines the student has met all of the varsity participation eligibility criteria.
6. A student may utilize this provision one time per 365 calendar day period.

CONCUSSION MANAGEMENT RECOMMENDATIONS FOR MSHSL ATHLETES

Acute injury

When a player shows any symptoms or signs of a concussion, the following should be applied.

1. The player should not be allowed to return to play in the current game or practice.
2. The player should not be left alone, and regular monitoring for deterioration is essential over the initial few hours after injury.
3. The player should be medically evaluated after the injury.
4. Return to play must follow a medically supervised stepwise process.

A player should never return to play while symptomatic. "When in doubt, sit them out!"

Return to play protocol

Return-to-play following a concussion requires resolution of all symptoms and completion of a stepwise exercise protocol. Each step requires a minimum of 24 hours. If any symptoms or signs recur, the player should drop back to the previous level.

The athlete may return to practice and competition only when: 1) free of all signs and symptoms at rest and during exercise, 2) completed the stepwise exercise protocol and 3) returned to school for full days.

Steps required to return to play after a concussion:

1. Sub threshold symptom during regular activities of daily living and school.
2. Light aerobic exercise such as walking or stationary cycling, no resistance training.
3. Sport specific exercise—for example, skating in hockey, running in soccer; progressive addition of resistance training at steps 3 or 4.
4. Non-contact training drills.
5. Full contact training.
6. Game play.

The final return to competition decision is based on clinical judgment and the athlete may return only with written permission from a health care provider who is registered, licensed, certified, or otherwise statutorily authorized by the state to provide medical treatment; is trained and experienced in evaluating and managing concussions; and is practicing within the person's medical training and scope of practice.

Neuropsychological testing or balance testing may help with the return to play decision and may be used after the player is symptom free, but the tests are not required for the symptom free player to return to play.
